WHAT OUR CLIENTS ARE SAYING ABOUT US

"I would like to express my appreciation to Pixelsoft and the exceptional work they did with our FOP recruitment video. We realized that a recruitment video was a need in our area to help us take this organization to the next level. We looked at several possibilities throughout the state to help us make the best video. We decided to use Pixelsoft to help us. Our organization was more than pleased with the professionalism, the passion and the product they provided. Pixelsoft not only worked with us closely on this project, but did their homework to understand what our organization is all about. On behalf of the Fraternal Order of Police, we thank Pixelsoft for their hard work."

Marco Monteblanco,
President F.O.P.

"We have used Pixelsoft Films to create 3 marketing videos for us in the last year. All three videos turned out great. In addition, they were on time and on budget. The videos include footage that was shot in our factory, in the Pixelsoft studio and outside in various demanding environments. Gary, Stephanie, and their staff are easy to work with and will go out of their way to meet a demanding deadline. In addition, we have used Pixelsoft for some advanced Photoshop work that involved combining two existing images to create one. Even when enlarged, it is virtually impossible to tell that the image was altered. I would highly recommend that you talk with Gary and his team to see how they can help your business."

Jerry Sooter,
BRUKER
